## LOCAL NEWS.

RIVER NEWS .-- The heavy rain of last night and the wind that accompanied it, following to the ocean, and the gladness was increased almost to enthusiastic delight among those on the wharf who about one o'clock this afternoon witnessed the arrival in quick succession of the Government double ender Tallapoosa, the New York steamer, John Gibson, and the Norfolk steamer Lady of the Lake which had been detained for so long a time at Quantico. The Tallapoora went on up to the Navy Yard, and the John Gibson and Lady of the Lake stopped here to land their freight. The stern wheeler Pioneer which had been lying at the outlet lock of the canal for some weeks past with a load of dead horses availed herself of the opportunity afforded by an open way yesterday to proceed to the bone mill between here and Washington. The tug Katie Wise went to Washington yesterday evening and towed down to this city the schooner Enoch Moore. The schooner William Allen for Jersey city, which has been lying at this port since the late freeze, when the reporter was on the whart at noon, was waiting for a tug to tow her down the river. The tug Potomac started down this morning to the assistance of the schooners Viola and Martha Washington, which, up to last night were visible in Broad Creek, but which had disappeared this morning, and for whose safety fears were entertained, as it was thought they might have been caught by the ice, and either cut through or swept down with the floes. A telegram received here yesterday reported the schooners M. C. Cranmer and B. C. Terry and two other vessels at Piney Point, but one from Quantico, this morning, reported the two vessels named at that point, and the tug boats Katie Wise and Gov. Curtin left here about noon to tow them up. Six vessels arrived at Quantico last night, three of which were oyster boats. A dispatch from Georgetown to day to the agents of the steamer E. C. Knight stated that that vessel would sail for New York this afternoon, stopping here to take in freight. The ferry boat City of Washington re-commenced her trips betweeen Washington and this city this morning, and as will be seen by an advertisement in another column both the boats on this line will resume their regular hourly trips to-morrow morning. The Maryland ferry line was kept up to day by the trips of a row boat.

P. S. Since the above was written the schrs. Martha Washington and Niola have been seen beating up. They went up Broad Creek last night to get out of the way of the running ice. The steamship E. C. Knight got aground while on her way down and did not sail for New York

SMALL-POX. - One new case of small-pox, that of a colored boy living in a court in the center of the square bounded by King, Alfred, Prince and Patrick streets, was reported this morning. He had never been vaccinated. His mother is an inmate of the Poor's House, and was with him a day or two ago. Considerable excitement was created on south Henry street early this morning by a colored man named Sam Youg, who, thickly broken out with the disease and laboring under the fever's delerium, had escaped from the house in which he lived, and was running about that locality in an almost nude state. He was finally secured by his mother, taken home, and afterwards sent to the small-pox hospital, to which place several other cases were to have been taken to day. The Board of Health had a meeting last night and made arrangements for the care and medical attention of all the cases that may be sent to the hospital, and directed that certain pa-

Mr. Carpenter moved an amendment appropriating \$300,000 to be expended under the direction of the Secretary of War in the completion of the Washington Monument.
